PROFILE

Backend Developer focused on ASP.NET ☑ Core Web API, RESTful API design, and database optimization using Entity Framework Core and SQL Server. Experienced in implementing authentication with ASP.NET ☑ Identity and JWT, integrating third-party services (Paymob, MailKit), and building real projects like e-commerce, task manager, and a mini search engine. Known for clean architecture, problem solving, and mentoring junior developers.

PROFESSIONAL EXPERIENCE

Instructor - Backend Development (ASP.NET)

11/2025 – Present

Microsoft Student Partners (MSP), Al-Azhar University

Delivered backend training on C# and ASP.NET Core, mentoring students on API development, clean code practices, and real-world backend concepts.

Software Development Trainee – Full Stack .NET

11/2025 – Present

Digital Egypt Pioneer Initiative (DEPI)

Trained in full-stack .NET development using C#, ASP.NET Core Web API, MVC, SQL Server, front-end fundamentals, Git/GitHub, and Docker, with hands-on capstone project experience.

Web Development Trainee (.NET)

06/2025 – 07/2025

Information Technology Institute (ITI) – Creativa

Completed a 120-hour intensive .NET training program focused on ASP.NET MVC, Entity Framework, SQL Server, and practical web application development.

EDUCATION

Bachelor of Computer Science

08/2022 – Present

Fayoum University

Grade: 3.31/4.0

PROJECTS

E-Commerce API Platform ☑

ASP.NET Core | EF Core | SQL Server

- Built a **scalable E-Commerce REST API** using Onion Architecture.
- Implemented product search, filtering, sorting, and pagination.
- Developed cart, wishlist, order, and stock management features.
- Integrated **Paymob payment gateway** and **MailKit email services**.
- Applied Repository pattern, DI, and AutoMapper.

Task Manager Platform ☑

ASP.NET MVC | EF Core | SQL Server

- Developed a **task management system** with full CRUD functionality.
- Implemented authentication & authorization using ASP.NET Identity.
- Built background services for email reminders and auto user unblocking.
- Created an admin dashboard for user and task management.

Movies Platform ☑

ASP.NET MVC | C# | SQL Server

- Built a **movie search and rating platform**.
- Implemented inverted index for fast search performance.

SKILLS

- Technical Skills: C#, ASP.NET Core (Web API, MVC), EF Core, SQL Server, HTML/CSS/JS, Git/GitHub, Docker (Basics), REST APIs, JWT, Clean Architecture.
- Soft Skills: Communication, Teamwork & Collaboration, Problem-Solving, Time Management, Adaptability, Critical Thinking.
